Cultural Fire: Caring for Country

In December 2025 the Yugambeh Nation shared news from the **Firesticks Alliance**. Firesticks' 2025 Annual Impact Report featured the **Mununjali Fire Team** on Yugambeh Country.

The team began as small gatherings to share Cultural Fire. It has grown into a strong, community-led network grounded in Yugambeh culture, and is becoming a lasting community organisation that can support other groups bringing fire practice back across the region.

Through workshops, mentoring and work on Country, the community is building a roadmap to look after itself. The shared vision: **Yugambeh people thriving and leading land management on Yugambeh Country.**

Questions

1. Where does the Mununjali Fire Team work, and how did it start?

2. What three kinds of activity are helping the community build its roadmap?

3. What is the shared vision for land management on Yugambeh Country?

4. Why might it matter that land management is led by the people whose Country it is?

Find out more

Read the full story on page 29 of the Firesticks 2025 Annual Impact Report (firesticks.org.au/impact). Then write three questions you would ask a member of the Mununjali Fire Team.

1. _____
2. _____
3. _____
